World Skills Competition 2019 Kazan

The fascinating journeys of Construction sector WorldSkills participants from India

Hailing from a remote village in West Bengal, Ramjan started as a labourer to provide for his family. He earned mere daily wages of Rs 200 till he was discovered by a construction firm, ATS Infrastructure that trained and guided him towards perfecting his skills. His grit and dedication paved his way to getting a promotion within a year and securing first position at IndiaSkills National Competition among competitors from across the country.

Mohammed Rabith's father is a coolie, or a porter. Understandably, his household income has been scarce. Carrying the weight of uplifting his family on his shoulders, he decided to undertake skill training in tiling. As his training progressed, he started understanding the intricacies of the process, and started to fall in love with the beauty of the skill. Today, he is the finalist who will be representing India internationally. He is content with the experience and exposure that IndiaSkills has given him, and wishes to give his best, whatever the outcome may be.

World Skills Competition 2019 Kazan

The fascinating journeys of Construction sector WorldSkills participants from India

Raji hails from a small village in Telangana, where his father worked as a farmer and his mother, a home maker. Being the sole earning member of his family, Raji also helps his widowed sister financially to manage her house. After tremendous struggle, he is now working with one of the leading interior design companies in the department of plastering & drywall. His hardwork and consistency has resulted in his elevation to the post of a supervisor. Raji is the first amongst his family members to visit a foreign country.

Hailing from the southern state of Telangana, Naresh aspires to become a civil engineer. Since childhood, he always found the structure of buildings to be fascinating and grew fond of drawing sketches of various construction sights. He is a quick learner and is always eager to learn new methods and processes of his field. This WorldSkills competition, Naresh aims to win a medal and prove his metal.

The fascinating journeys of Construction sector WorldSkills participants from India

22 year old engineer, Amit Yadav hails from Uttar Pradesh. Coming from a modest background, Amit never forgets to count his blessings. He always has a positive attitude which makes him an attentive and excellent learner. For him, getting the opportunity to represent India at the WorldSkills Kazan 2019 is the best thing that has happened to him so far. His goal right now is to win a medal for his country and make his family and nation proud.

The 48-member Indian Team representing the country at WorldSkills Kazan 2019 was given a grand send-off at a ceremony, organized by National Skill Development Corporation (NSDC) under the aegis of Ministry of Skill Development and Entrepreneurship (MSDE), to motivate the participants as they gear up to pit their skills against the best in the world. India is the sixth largest team that will take part in the competition. Team CSDCI wishes them all the best for competition ahead.

Wishes from Construction Giants to Team India for WSC 2019 Kazan

BAINational @BAINational · Jul 30
