## MESSAGE FROM THE CEO'S DESK

At the outset, I extend my sincere and heartiest wishes to all as we move into new ray of hope and promise with the beginning of the year 2020. God has gifted us another new year which is full of exciting opportunities. I wish this New Year brings with itself the happiest and most beautiful times for you and give us the courage to triumph over vices and embrace the virtues.

Opportunities flow continuously, keeping pace with the changing business, technological and regulatory environment. As you are aware, the role of CSDCI involves both static and dynamic aspects. While the static role involves routine coverage of assessment targets, the dynamic role extends to futuristic strategy, sector-specific dynamism and venturing into new realms of construction skills ecosystem. CSDCI has always strived to achieve the utmost level of quality, as desired by the stakeholders and has continually progressed in the last few years.

The year 2019 brought challenges in various fronts but were met with favourable outcomes. Be it the achievement of respectable figures of generation of contracts in NAPS to winning the medallion of excellence in two trades in WorldSkill Competitions at Kazan, Russia, CSDCI is advancing towards becoming the premier organization to provide Skill Development solutions having both National & international benchmarks. That said, I would like to thank all of you for your continual support and for portraying true professionalism. At this juncture, I would take this opportunity to advice the readers - training providers, assessment agencies, trainers, assessors & other stakeholders in the construction skills ecosystem, to develop a vision and foresight towards the changes and its impact on the various construction job roles.

With best wishes !

Anand Kumar Singh.

CEO-CSDCI.
